

BHUPENDRA CHOPRA

PHP Laravel Developer | Full-Stack Web Developer
Jaipur, Rajasthan, India | +91 9413966576 | bhupendrachopra001@gmail.com

PROFESSIONAL SUMMARY

Result-driven Software Developer with 3+ years of experience in full-stack web development using PHP, Laravel, and modern JavaScript frameworks. Proven expertise in building scalable multi-panel systems, RESTful APIs, and secure backend architectures. Successfully delivered end-to-end production applications serving thousands of users across education, food delivery, e-commerce, and NGO sectors. Adept at leading projects from requirement gathering to deployment.

TECHNICAL SKILLS

Languages & Frameworks: PHP, Laravel, HTML5, CSS3, JavaScript (ES6+), React.js, Node.js, Bootstrap

Databases: MySQL, PostgreSQL, MongoDB

Tools & IDE: Git, GitHub, VS Code, Cursor, Postman, Composer

Cloud & Hosting: AWS, cPanel, DigitalOcean, Hostinger, VPS Server

Soft Skills: Team Leadership, Problem Solving, Project Management, Client Communication

PROFESSIONAL EXPERIENCE

DevTechnosys | PHP Laravel Developer (Software Developer) *Dec 2025 – Present*

- Developed clean, maintainable full-stack code using PHP, Laravel, React.js, and Node.js
- Designed and implemented scalable web applications with optimized architecture
- Built responsive frontend interfaces using React.js and Bootstrap for superior UX
- Integrated third-party REST APIs and optimized MySQL queries for better performance
- Collaborated with cross-functional teams to deliver projects on schedule

Moksha Digitech Private Limited | PHP Laravel Developer *Dec 2024 – Dec 2025*

- Built complex multi-panel web applications with role-based access control (RBAC)
- Managed complete project lifecycle: requirement analysis, development, testing, and deployment
- Designed normalized database schemas and optimized queries for high-traffic applications
- Developed and documented RESTful APIs consumed by mobile and web clients

Codunite Pvt Ltd | Software Developer *Dec 2023 – Nov 2024*

- Developed scalable, production-grade web applications using Laravel and Bootstrap
- Integrated REST APIs with third-party services (payment gateways, SMS, email services)
- Optimized MySQL queries and database design, reducing query response time significantly
- Participated in code reviews and maintained high code quality standards

BMOIT Company | Intern & Full-Time Web Developer *Feb 2023 – Nov 2023*

- Wrote clean, maintainable PHP and Laravel code following best practices
- Designed cross-browser compatible, responsive UIs using HTML, CSS, and Bootstrap
- Gained hands-on experience with MVC architecture and RESTful API consumption
- Contributed to bug fixing and feature development in a fast-paced environment

PROJECT HIGHLIGHTS

PayolStudy – School Management Ecosystem *Tech: Laravel, REST API, Bootstrap, MySQL*

- Built a multi-panel platform with 5 roles: Super Admin, School Admin, Teacher, Student, and Parent
- Developed RESTful APIs for real-time data sync across web and mobile applications
- Super Admin: centralized dashboard for school registration, subscriptions, and activity monitoring
- School Admin: full control over fee collection, attendance, salaries, and academic progress
- Teacher: manage classes, subjects, exams, and daily student attendance
- Student/Parent App: real-time access to attendance, fee status, exam results, and learning progress
- Implemented RBAC with secure JWT-based API authentication

Clickfy – Multi-Restaurant Food Delivery Platform *Tech: [Laravel](#), [REST API](#), [Bootstrap](#), [MySQL](#)*

- Built a complete restaurant aggregator with User App, Rider App, and Restaurant App
- Super Admin Panel: centralized tracking of all restaurants, riders, payments, and order status
- Restaurant Panel: menu management, real-time order acceptance, and payment confirmation
- Rider App: order pickup/delivery assignments, route tracking, and earnings management
- User App: browse restaurants, place orders, live order tracking, and payment processing
- Implemented real-time order tracking and payment gateway integration end-to-end

VHK Foundation – Charity & Donation Platform *Tech: [Laravel](#), [REST API](#), [Bootstrap](#), [MySQL](#), [Payment Gateway](#)*

- Built complete donation management system for a non-profit charity organization
- Developed admin and volunteer panels with granular permission-based access control
- Features: blog management, event tracking, donation receipts, and volunteer management
- Integrated secure online payment gateway for seamless donation collection

Galaxy – Full-Featured E-Commerce Platform *Tech: [Laravel](#), [REST API](#), [Bootstrap](#), [MySQL](#), [Payment Gateway](#)*

- Built production-ready eCommerce website with complete product and order management
- Admin Panel: products, categories, inventory, orders, customers, and payment transactions
- Implemented shopping cart, checkout flow, payment gateway, and order status management
- Delivered fully responsive product catalog with filtering and search functionality

EDUCATION

Master of Computer Applications (MCA) — GYAN Vihar University, Jaipur

Bachelor of Computer Applications (BCA) — University of Technology (UOT), Jaipur

CERTIFICATIONS

- C, C++, HTML, CSS, PHP, Laravel, Bootstrap – JICS (Jaipur Institute of Computer Studies)
